

Baby War D Strategy

Woundwort is a **DCR 27** Dungeon

It's a baby war D with an open heart

If Woundwort goes into battle, then they get matched with other dungeons >30 DCR

These battles give an average of **32 stars** with a 2 star win

If Woundwort waits to be killed by a high 150+ DCR war Dungeon, then they can revenge for an average of **400 stars** with a 1 star win

So strategy is allow self to be beaten as quickly as possible, then revenge open heart, high DCR dungeons

This strategy allows a you to gain about 20K stars in a tournament.

Playing regularly would only get about 2K stars in a tournament.

Revening an open heart can be done with Tiny (if hard enough) and warlocks.

Plus mana and other minions if not completely straight run to the heart.

To find out the optimal trophy level for this strategy Woundwort played from 500 - 2600 trophies during a tournament.

Results overview:

Trophies	Stars	Average Stars per hr	Attacks on me	Successful revenges	%	Attacks per hr	Stars / revenge
500-1600	★ 10,514	1,976	60	24	40%	12	438
1600-2300	★ 4,723	1,223	44	12	27%	11	394
2300-2600	★ 4,250	850	44	9	20%	11	472
Total	★ 19,487	1,392	148	36	24%		

At both 1600 (Silver 3) and 2300 (Gold 3) I saw significant changes in the people who attacked me.

Also at these numbers the trophies you get for a win and lose change.

So I think these two numbers are significant in the matching formula.

I saw no other major changes apart from at these figures.

Baby War D Strategy Notes

Dungeon Design

- Don't upgrade workshop over level 6
- Don't build a graveyard
- Have an open heart (no defences in a straight line from an entrance to heart)
- Don't build or upgrade too many disposable traps, as they are expensive to refill
- Slightly protect your attack rooms
- Really protect your resources
- Upgrade resource rooms and mines as much as possible
- Don't open mines until you really need to

Minions

- Upgrade skellys and trolls as much as possible
- Don't upgrade other minions (Warlocks debatable)
- Upgrade Horney to 10
- Upgrade Tiny as much as possible

Raiding

- Have between 500 and 1600 trophies - Don't go over 1600
- The higher your trophies the more low DCR matches you get.
- Sandbag during the tourney to stay under 1600

Get beaten as much and quickly as possible

__make sure your are not caved in, minimise app, close lid, wait 2-3 mins

__hopefully when you come back you're under attack,

__you don't want more than 1 attack at a time

Revenge any high DCR open hearts for a big star win

Don't revenge others unless you need to refill stone and gold

Don't play your own battles, just revenge

You should get about 2K stars per hour.

About 40% of your revenges should be easy win open hearts.
